

Dr. Lynette Charity

Physician Speaker

Dr. Charity SHIFTS the mindsets of Physicians and Physicians-in-training from **BURNOUT** to **BLISS**.

Lynette D. Charity, MD is an Anesthesiologist, International Keynote Speaker and Humorist. Using her talent as a masterful storyteller, she wants to teach fellow physicians and physicians-in-training how to **RECOGNIZE** the three most prevalent symptoms of depression; how to **REDIRECT** the “negative voices” that may cause us to do harm to ourselves; and how to **REACT** to today’s “healthcare soap opera” with laughter.

The field of medicine was her calling and during her 40-year career, Dr. Charity has experienced it all. Racism, Discrimination, Sexism, Depression, Burnout, and even Suicidal ideations, yet she persevered through emotional resiliency and support from peers, family and friends. In 2012, at age 60, she decided to pursue a second career. Maintaining a part-time solo practice, she began developing skills in public speaking and stand-up comedy, trading night and weekend call for long-distance travel to speaking engagements and late nights at open mics. Through her comedy experience, she learned how to deal with disgruntled patients, colleagues and administrators whom she just calls “hecklers.” Through her professional speaking experience, her message of resilience and growth through adversity is shared with others who need to know that they are not alone in their struggles.
